

Max Baranov

Junior Front-end developer

bv.maks@icloud.com / [GitHub](#) / mxbv.github.io

Experience

February - September 2024

WebMasters, Odessa - Trainee Front-end developer

In a small studio team that created advertising pages for various businesses on the internet. As part of a three-person team, I was responsible for page layout and implementing pre-written scripts on the test site. I performed initial bug testing and handed over the final version to the senior developer. I actively participated in calls and discussions regarding the implementation of projects. Technologies used: JavaScript (Vue.js), HTML/CSS, GIT.
